-------------------------	------------

Subtotal £60.00**Total** £60.00

Notes

Think Green, Print Less. Every day, people hit the print button without really considering why. We estimate that over 50% of pages printed are never looked at. Wasting paper, ink and toner doesn't make economic or environmental sense. At *Zero Due Design*, we always provide our invoices in a digital format. Plus, by using an online system for our invoices/quotations, we are sensibly reducing our paper consumption. You can log into your client dashboard and see all your invoices/estimates at any time. Ask us for more information.
